

The Indian Youth Economic Association is pleased to announce its Internship Program for Fall/Winter 2016. Internships are available for both undergraduate and graduate students and while some positions provide a monetary compensation these will be subject to performance and results.

Currently available positions are as follows:

Liaison & Logistics Associates: Individuals with professional or non-professional experience in management and logistics for events are encouraged to apply for this program. Interns will work on upcoming events & conferences collaborating with national and/or international partners. Stipend will be performance-based.

Research Associates: Graduate and undergraduate students with some amount of experience in research in economics and other social sciences may feel free to apply for this program. Field work may be required but won't be compulsory. Research work will be directed towards publication of The Indian Journal of Economics, History and Social Sciences.

IT/Web Designing Associates: Individuals with professional or non-professional experience in IT, web designing, graphic designing and/or social media management are encouraged to apply for this program. Stipend will be performance based.

Interested parties may apply by sending in their resumes to interns.iyea@gmail.com.
